MATTERS AT THE CAPITAL

[Special Correspondence Chicago Tribune.]
Union Cirv. Tenn., Aug. 18, 1892.
On the morning of the 15th a measenger reported to these headquarters that sixty or seventy rebel recruits for Jackson's cavalry, from Graves and Hickman counties, Kentucky, were passing within eight miles of this place, southward under one Captain Bindeld, who had taken the oath some time since at Hickman. The commander of this post, Col. Harris, 'mmediately ordered out company C. Capt. Pullerton, 2nd Bileois cavalry, in pursuit. The colonel accompanied the expedition in person. in the Woodpile. [Special Dispatch to the Chicago Tribune.]

Washington, August 21, 1982.
Theodore Marsh, in behalf of the City
Conneil of Cincinnati, made an application Conseil of Cincinnati, made an application for the 5th Ohio to return to that city to recruit, or in default of that, to return to forts in the neighborhood of Washington while recruits shead be raised and forwarded. Similar applications were nade in behalf of the 7th, 29th and 66th Ohio. made in behalf of the 7th, 20th and 69th Ohlo. Gen. Halleck fishly refused, and said he would not allow them to leave the front.

The 63d Indians is the only Western regiment is the brigade just organized for Gen. Sungts, of Missouri notoriety.

had taken the oath some time since at Hick man. The commander of this post, Col. Harris, immediately ordered out company C. Capt, Fullerton, 2nd Illicois cavalry, in pusualt. The colored accompanied the expedition in person.

Our forces left at 7 a. m., under command of Lieut. C. Terry, and overtook the enemy about 12 m., at Merriwether's ferry, on the Obion River, thirty miles from the city, where they were about to cross to join some 150 others who were camped on the opposite side. The engagement lasted half an hour. Our men came up, the enemy dismounted and hid behind trees and logs, while those on the opposite side of the river opened a cross-dre on our men, which resulted in killing three. Licut. Calvin Tarry was shot through the body, and only lived one hour. Lieut. John Goodheart was shot through the heart and the head, and fulfied instantly. Jacob P. Stone, private was shot in the head and died immediately. But the rebels were most seriously punished. Twenty were left dead on the field nine were taken prisoners—and two were taken prisoners and were killed next day, who were making their escape back to Kentucky. Sixty horses and mules and forty guns fell into our hands. Capt. Fullerton is in full pursuit of the enemy.

List of the killed and wounded: Calvin e durance of captivity belong-equally to Col. N. fl., who was also confined as one of the hostages for the safety of the privateers, and who was longer in confined as one of the hostages for the safety of the privateers, and who was longer in confined the will not return to his old position in the 2nd Kentucky, but will take command of a new Ohio regiment. The returned prisoners crowded the war department to day, getting short furloughs. Halleck wanted to order them at once to their respective posts in the army again, but they protested so strongly against the injustice of refusing them opportunities of seeing their friends after their long confinement that they gained their point and secured furloughs ranging from ten to thirty days.

It is stated that the uncertainty about Cassius M. Clay's position grows out of the probability that the administration will find it necessary to semi him back to Russia. friends after their long confinement that they gained their point and secured furioughs ranging from ten to thirty days.

It is shated that the uncertainty about Casius M. Clay's position grows out of the probability that the administration will find it necessary to sent him back to Russia. It is reported that Cameron intends to return and attempt to secure an election to the United States Senate from Pennsylvania; and the government believes that Clay has established more friendly relations and secured more influence with the Gaar than any new man could expect. If Clay, however, is assigned to a command, it will be with the distinct understanding that he shall have liberty to not on his views as to the proper mode of carrying on the war.

Gov. Sprague's colored regiment business seems to remain in statu que. The fact seems to be admitted that if Rhode Island raises the regiment and puts it in the field, it will be difficult, if not impossible, to find a astisfactory method of rejecting it. Meantime the hope recems to be emertained that colored men wont be found to enlist resdily, and that the president may then be released from the ankward dilemma.

Some of the clerks of the treasury department are organizing into military companies to be called into active service whenever the government may thank the crisis such that their services will be of more value in the field than in carrying on the business of the department. Others are leaving to recruit companies, while their follow elerks are raiging from the rotustion of the crisis such that their services will be of more value in the field than in carrying on the business of the department. [From the Cincinnati Gazette, itst.]

With Buell's generalship, the whole of the new levies may be occupied in garrisoning Kentucky and Tennessee, in the rear of Buell's army, without any progress. A half a million of men may be kept on the defensive, garrisoning villages and guarding railroads and bridges. With reasonable energy in the commanders, there would have been no luvasions or outbreaks in his rest. Until there is a change in the command, and for ward movements inaugurated, and different sympathies exhibited, the army and all the new troops which are now being hurried into Kentucky will be wasted to no purpose. Is it not strange that the government has had to make a military department in the rear of Buell's army, and to create a major general to defend it? The place to defend Kentucky and Tennessee is in front that is needed.

This rebellion is alled with all those elements of uter depravity and malignity, is composed of the percolate and infernal nature, that finds in forbearance only fortunate reprieve from punishment and-new chance for crime; that laughs at offers of reconciliation because they afford time to gather more force and strike mere fatal follows; and mocks as the upfifed blow that fails to descend, for while it delays there is hope to get out of its way, or break its force when it falls. To give rebels time to reflect on their courseles is simply giving them time to consider the best methods of the mentods of the methods of the farment and look at the subject as it is, while the grandal force in the first may be force when it falls. THE BATTLE OF BATON ROUGE.

Interesting Reports and Detalis.

Perior's Rep pt of the Ragagem with the Arkanas—A Narrative of a Soider of the 4th Wiscosein Regiment, etc.

Headquarters Second Registers, Bayon Rouge, August 6, 1862. Cartain—I have the honor to report that a tatak was made early yesterday inorming, y a confederate force of about ten regiments, under command of Major General J. C. Breek-ridge, and that after a fight of four hours unsites and of great severity, the enamy mider command of Major General J. C. Breekinridge, and that after a fight of four hours
duratice and of grint severity, the enemy
were requised.

I regret to state that Brigadier General Williams was hilled on the field by a ride ball
through the chest.

During the satile one forces were obliged to
retire about a quarter of a mile from our
original position, and the enemy were thus
able to occupy temporarily the camps of the
list Inclians, 7th Vermont and 14th Maine
regiments, and to destroy much of the baggogs and camp equipage. They were, howcert, driven out; but, our numbers beingmuch lessened by sixtness, and the men on
the field being much exhausted by fatigue and
heat, it was deemed inexpedient to pursus.
I sem unable as yet to give a report of our
cavalities, which, I am serry to say, are considerable.

The enemy have retired several miles, and,
from all I case lesers, are still retiring. I am
expecting it possible they may receive relaforcements, and am disposing of my troops
in the strongest positions. Our force engaged
numbered less than 2,500; the renemy had at
least 5,000, with twelve or fourteen field
pieces, and some cavalry.

The ram Arianusa approached with the intention of engaging our gunboars, but grounded above the point; at a distance of about six
miles, and to-day was engaged by the fronclad E-sex and destroyed.

Englosed are copies of a communication received by fing of truce from Major Goneral J.
C. Breckinridge and my reply thereta. You
will see by the latter that Brigadier General
Clarke and his sid-de-camp have delivered
the metives up as prisoners of way.

I have also fully seventy wounded prisoners
who were left on the find, also about thirty
captured. I would like instructions as to the
disposition you wish made of them. Some
express a vish to be paroled.

Your respectfully, your obselient servant,

[Correspondence of the Illinois State Journal]

Carre Gartonn, Miss., Aug. 10, 1892.

General J. B. Plummer, one of our most she generals, died yesterday at 5 o'clock.

General Plummer was a graduate of West Polat, and had been in the United States service for over twenty-five years. He was attached to the lat U. S. Infastry notil he took command of the 11th Missoud Volunteers (from Illinois.) He was one of the best officers in the army, and bis endedne death will be felt by all who knew him. He had been absent on sick leave, and returned to camp only yesterday, complaining of not being well. In two hours he was a dead man. It was well that he should refer from the city and die on his camp cot, in his tent, with none but feliow soldiers around him.

Please asnounce his death in your journal, for he has frienda among your readers.

With respect, Major A. J. Werker.

BRECKINRIDGE ON THE DOUBLE QUICK.

[From the New Orleans Belta, Aug. 21.

The "time made" by Breckinridge's shoddy followers on the morning of the 5th, in their retreat from Baton Rouge, deserves 'Dublic mention. They began the retreat at tem o'cicek, and at twelve they were ten mifne the fant from the scene of their inglorions repuist. This is certainly the "best time on record." Mr. Breckinridge always ran well before the people. He understands running. On this occasion he ran to fight another day, perappe. But it is our judgment, Jefferson Davis, when he hears of this exploit, will hamp him up to dry, right beside Mansfeld Lovell. Why stort Breckinridge is no more of a soldier than Lovell. But let us forget him. He is the meanest traitor ever raised in Kantucky.

Just think of it. He had diteem regiments Lovell. But let us forget him. He is the meanest traitor ever raised in Aconston.

Just think of it. He had differen regiments of infuntry, a body of cavalry and ten pieces of srtillery, and yet he was pushed off the field by a force not one-fourth his number.

To our apprehension, this sight at Baton Rouge is, in its results, one of the most signal victories of the war. What with the total rout of the ragged starvings of Breckinridge the 'skedadding party,' as somebody styled them yesterday—and the destruction of the ram Arhapas, the day described the latest and the startest of the present the present the startest of the present the startest of the present the present

THE PEDERAL LOSS AT BATON ROUGH.

In the battle at Baton Rouge the Union forces suatined a loss of about seventy killed and 215 wounded. We have not a list of the dead. General Williams had three horses shot from under bim. He was killed while rallying the 21st Indianars, who had just lost a field-piece. The gun was retaken; but Gen. Williams fell, his body having been pierced by several builtets. In North Louislana I have three (3) regiments unatmed.

In Miscouri siz (6) regiments are forming for which I have no arms.

In the Indian country there are four (4) or five (5) regiments who e arms are worthless. I have gathered up by purchase and impressment about all the arms in my district. It is perfectly, certain that not 1,000 more gains can be obtained. Of those that I have only about 800 are volumble, the balance being shotguns and commen rifles.

In response to my previous appeal for arms, Ger. Beauregard ordered turned over to my ordennes otherer, M-jor Lockman, some 450 damaged shotguns and rifles, and sent ine a worthless battery. These I have received.

Curris is devastating Eastern Arkansas. A gunboat and transport fiest is at the mouth of the Arkansas River; a Union force of between 2,000 and 5,000 is in the Cherokee Nation Another Union column of about the same strength is in Northwest Arkansas.

Good Progress.—Quartermaster Sheridan (Alderman of the 10th Ward) informs us that the 90th regiment, Irish Legion, now numbers 600 men. Other companies in the country are so nearly full as to warrant the belief that the regiment will be slied by Tuesday next.

REARDY TO MARCH.—We learn that the 1st Board of Trade regiment has its tents and blankets, and is nearly ready to march. It is wanted as soon as it can get to the field, as are all our other regiments. Everything depends on celerity of movement now.

THE GRIEFMACKS CONING.—Capt. Christopher, the U. S. mustering officer, received a burge pile of greenbacks, yesterday, for disbursement to the volunteers. The First Board of Trade regiment and Col. Harding's at Monmonth have received their proportion—twenty-seven dollars to each man.

Treated at N. w Breech Loading Gun,
Testerday afternoon, there was a trial of
the new breech loading gun, invented by Captain E C. Bristol, of this city. The frist took
place on Michigan avenue, new Congress
sirect, and was witnessed by a large number
of spectators, with evident interest and atilfaction.

This gun was invented by Captain Bristol
nearly a year ago, but the inventor has never
sought to bring it into general public notice
until now. It is simply a breech loading sixpounder, smooth bore, and fires with great
precision, for a long distance. It may be discharged twesty times in a minute, without
inconvenience or danger to the gunner. Its
grinchal point of superiority over the ordinary breech loading cannon, consists in
the fact that it does not "tool,"
or clog up, no matter how often
it is discharged. The breech is so arranged as
to be easily detached from the body of the
plece, and by the simple movement of a small
projecting lever, the "mortar" awings around
on a pivot, so that the mouth points directly
upward; the cartridge and bail are then dropped in, and in a moment the breech is returned to its proper position, and the gun is ready
to be discharged.

During the trial yesterday, twenty rounds

od to its proper position, and the gut is reasy to be discharged.

During the trial yesterday, twenty rounds were fired, the ball, in each instance, being thrown psobably two miles out into the lake. The firing was conducted by Capt. C. P. Bradley, and Capt. C. H. Jennings, who hadded the place with ease and dexterity.

Another test of this effective gun will be made to a few days, when all who daying cap.

Another test of this enective gun will be made in a few days, when all who desire can witness its operations.

In so far as he was commitest fitting one to Mr. Washburne's inval

councils of the nation at the present time, and this is unquestionably the feeling of the country. Our Washington dispatches say that the President is ready to issue a Proclamation of General Emancipation, but is held back by the strenuous opposition of two mem-bers of his Cabinet. We expect to see the advisers of the President are so illy chosen as to take such a stand. We can imagine ow it might, earlier in the war, have been made a part of formal diplomatic corres-pendence, to assure the world that, end

Considerable excitement has been caused in the community by the recent war order placing restrictions on the movement of war material in the shape of clizzens liable to the coming draft. This is a war time, and among the burdens of the era those are the lightest which only rest upon mere personal convenience. Saill, as at other periods, the people do well to watch their rulers, and remember now, as truly as before, that with the people is the source of

danger. Let us look at the military pass Everybody knows it originated in the necessity of putting an end to the hegira of sneaks. It is to be of only temporary duration. The draft will have passed by in a short time. But how is it managed in Chicago? The process is a simple one. To all travelers within the State, on proper representations and to the state, on proper representations. proper representations made, a free pass is granted, while all who desire to leave the State most deposit a bond for \$1,000 to guarantee their response to a call for mili-tary service. For this bond a dollar is demanded, and this last is the pron-inent cause of complaint. The mest exaggerated rumors prevail. Some anx-ious chizens assert us that from \$500 to \$400.000.

no definite instructions, which is unfortu-nate, and the rule naturally varies. In many places fifty cans or a quarter is charged on every pass issued. In several cities two dollars, and none three dollars has been charged on the production. has been charged for bonds. The real state of the case is, this new surveillance is ex-pensive. If employs many men as police-men, and in the offices. All must be paid for by the people. Perhaps it would be more equal to let the Government pay all the bills, but the officers generally have deci-ded, acting under careful advisement, to make the business as far self sustaining as
